TOTAL ADDRESSABLE RECOVERY

$2,922,625

CONFIDENTIAL - FOR INTERNAL USE ONLY

Executive Summary

Situation: Steamboat Ortho is escalated about low revenue. This analysis covers 12,313 encounters from Nov 2025 through Mar 2026, totaling $11.86M in billed charges with $2.65M collected (22.4% yield).

Key Findings:
• **$2.9M in addressable recovery** identified across denied claims, pipeline, PR collections, and yield gaps
• **Colorado Medicare severely underperforming** at 12.4% yield vs 30% benchmark - this is 28% of total billed
• **2,887 encounters stuck in MISSING_PROCEDURES** - cannot bill until coded (integration/coding gap)
• **Two providers with critically low yield** (~8%) vs team average (25%) - needs immediate investigation
• **Monthly yield declining:** Nov 34% → Dec 34% → Jan 28% → Feb 25% → Mar 6% (pipeline effect)

Recommendations:
1. Prioritize coding backlog (2,887 encounters) - this is blocked revenue
2. Deep dive Colorado Medicare denials and claim rejections
3. Investigate Timothy Balise and Khristin Degli yield issues
4. Improve PR collections from 63% to 75%+ benchmark

Key Performance Indicators

Metric	Value	Benchmark	Status
Total Billed	$11,859,470	-	-
Total Collected	$3,262,231	-	-
Overall Yield	27.5%	35-45%	■ Below
AR Balance	$2,640,058	-	-
PR Collection Rate	63.1%	75%+	■ Below
Denied Encounters	178	-	-
Pipeline Encounters	976	-	-
Missing Procedures	2,887	0	■ Critical

■■ CRITICAL: 2,887 encounters with MISSING_PROCEDURES cannot be billed. This is a coding/integration issue that must be resolved before any revenue can flow.

Quick Wins — Immediate Action Items

#	Action	Revenue at Stake	Owner
1	Resolve 2,887 MISSING_PROCEDURES encounters	Unknown (blocked)	Coding/Integration
2	Work 178 denied claims for appeal/rework	$489,959	Denials Team
3	Follow up on 976 pipeline claims	$1,488,867	Recon Team
4	Push PR collections (63% → 75%)	$355,416	Collections
5	Investigate Colorado Medicare 12.4% yield	$588K gap	Billing/Coding
6	Review Balise/Degli provider coding	$1.6M at low yield	Coding Lead

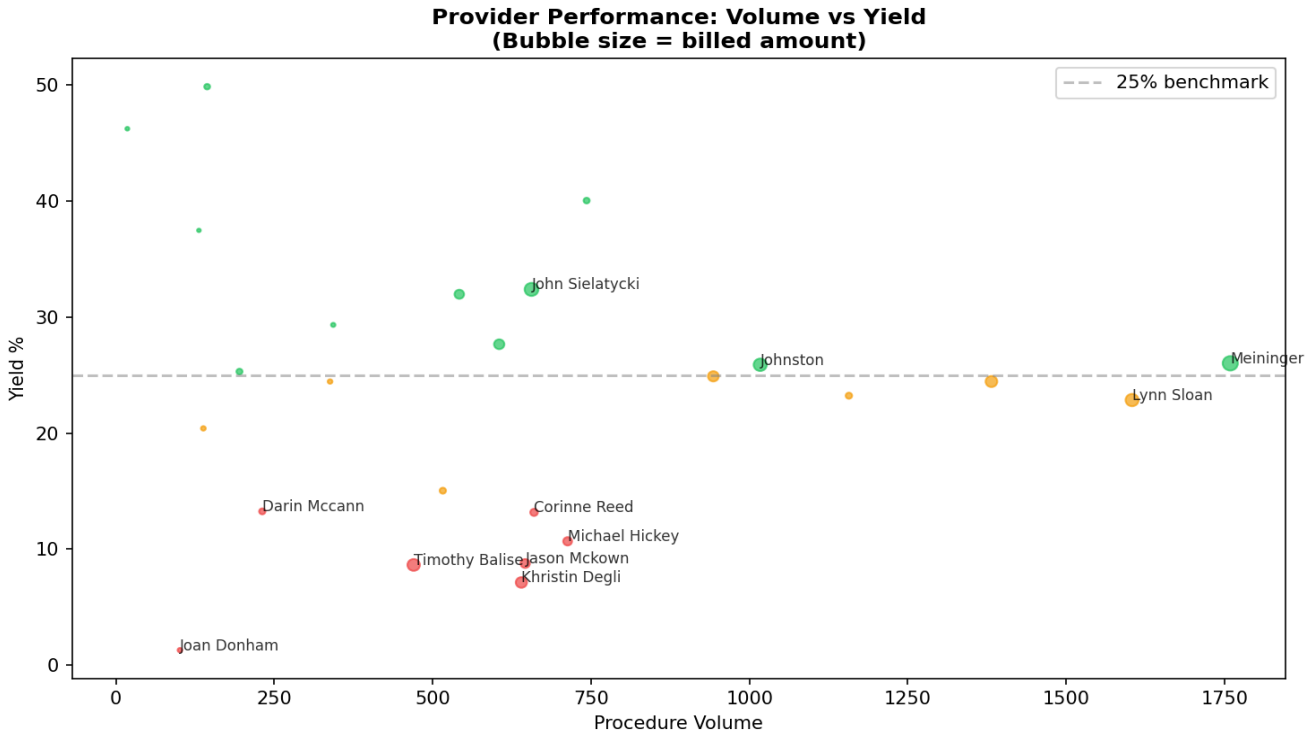
Provider Performance



Provider volume vs yield. Bubble size = billed amount. Red dots indicate critical underperformance.

■■ LOW YIELD PROVIDERS: Timothy Balise (8.6%) and Khristin Degli (7.1%) are significantly below the 25% team average. Root cause is NOT pipeline - their APPROVED claims also have low yield. Investigate coding patterns and payer mix.

Methodology

This report was generated from data exports covering:
- **Encounter Rollup:** 12,313 encounters from Nov 18, 2025 to Mar 23, 2026
- **Procedure Rollup:** 15,715 procedures
- **Claims Adjustments:** 12,484 adjustment records
- **Insurance Payments:** 11,880 payment records
- **Patient Payments:** 3,781 payment records

Yield Calculation: (Insurance Paid + PR Paid) / Total Billed × 100
Recovery Rates: Based on industry benchmarks for ortho specialty practices
Benchmark Yield: 35-45% for ortho, 30%+ for Medicare specifically
